Bunderstaaten. J. MENKE. Stellvertretender Königlich. Preuseischer

BEKANNTMACHUNG. ACH dem Norddeutschen Bundes Gesetz vom 25ten October 1867 haben alle Kauffahrteischiffe der Bundesstaaten, also namentlich die Preussens, Mecklenburgs, Oldenburgs und der Städte Bremen Hamburg und Lübeck vom 1ten April 1868 ab als Nationalflagge ausschliesslich die

Bundesflagge zu führen. Dieselbe bildet nach der Königlichen im Namen des Bundes erlassenen Verordnung vom 25sten October 1867 ein längliches Rechteck, bestehend aus drei gleichbreiten horizontalen Streifen, von welchen der obere schwarz, der mittlere weiss und der untere roth ist. Das Verhältniss der Höhe der Flagge zur Länge ist wie zwei zu drei. Die Bundesflagge wird von den Schiffen am Hock oder am hinteren Maste-und zwar in der Regel an der Gaffel dieses Mastes, in Ermangelung einer solchen aber am Top oder am Want geführt. Ein besonderes Abzeichen in der Bundesflagge oder einen Wimpel zuführen ähnlich demjenigender Kriegsmarine des Norddeutschen Bundes, ist den Kauffahrteischiffen nicht gestattet.

Die Lootsenflagge der Norddeutschen ist die neue Bundesflagge im kleinen Format, rings umgeben von einem weissen Streifen, dessen Breite gleich der der inneren Streifen ist.

Die Kauffahrteischiffe haben die Bundesflagge stets zu hissen, sobald sie ein Schiff oder Fahrzeug der Bundeskriegsmarine, cine Festung oder ein Küstenfort passiren, welche ihre Nationalflagge gesetzt haben. Dasselbe gilt bei der Begegnung mit Kriegsschiffen befreundeter Mächte auf See. Nach § 18 des Flaggengesetzes genügen die bisher von den einzelnen Landesbehörden

ertheilten Certificate auch zur Führung der Bundesflagge. Alle nur mit interimistischen Consular-Certificaten verschenen norddeutschen Schiffe haben indessen sofort ihre Eintragung in der Heimath zu bewirken. Königlich Preussisches General Consulat,

The Appendix may be termed the China Bradshaw, and the text teems with interesting papers,-historical, botanical, and descrip

treaty ports, and a valuable assistance both to travellers and residents. From the Englishman (Calcutta) of June 8:"The celebrated volumes of the French Aubé Huc on China, and Sir Rutherford Alcock's account of Japan are, no doubt, works of a far lawher class and more extensive scope than the one now before us; but for practical utility, for all purposes of locomotion, trading and residence in any of the places coming within its compass, The Treaty Ports of China and Japan, by Messrs Mayers, Dennys and

A very interesting book has lately been

nublished, entitled " The Treaty Forts of

China and Japan," to which it forms complete guide, and regarding the history of which it gives interesting particulars. Maps of the various localities described are insorted, and an appendix shows the existing means of transport between Europe and America and these two countries. A Shops, Market-Places, Labourers' Cottages, Stables | work of the kind was much needed, to place within reach of the general public information regarding the districts in which they reside that had hitherto been concealed under the mysterious hieroglyphics of the Chinese lunguage, or at best open only to sinologues. Shanghar Recorder May 7, and Supreme Court and Consular Gazette, May 11, 1867 A very useful book has just been issued from the Press in Hongkong under the title of the " Guide Book and Vade-mecum to the Treaty Ports of China and Japan," compiled and edited by Mr N. B. Dennys. The Book is very conveniently get up; is interspersed with maps of the various treaty ports, and contains, besides much useful local information, historical sketches of much interest. Our readers will feel naturally interested in what is said concerning Shanghai; and a good idea of the histhe "Murray" for China.

From the Hankow Times, May 18. We feel it to be a public duty to take the first opportunity of calling attention to the "Guide Book and Vade Mecum" just is, sucd for "travellers, merchants, and residents in general," in the Treaty Ports of China and Japan, by Messra Shortreda & Co., of Hongkong. * * * The order of description of the various places follows their position on, or from the coast, as we go northward. In each instance the history, position, means of access, accommodation, foreign residences, public buildings, community, mode and cost of living, mate, associations, amusements, places of interest, native institutions, population, local try, and its people, language, and inverument, natural history, productions and statistics of trade are given, along wit a miscellaneous detail of facts and incident in connection with particular localities. far as we are able to practically test the individual descriptions of the various places, they are given with a considerable degree of fairness and fulness. Peking, Yedo, and Macao are wisely included in the general survey. * * * The value of the book is greatly increased by a most copious index, and the work closes with a set of useful appendices. The last of these is the greatest novelty of the work. It consists of a bibli ographical index of all formal works published from the earliest date in the English languago on China and Japan: Philologi-We referred briefly, several days ago, to cal books are, for some reasons best known
